THE EASTERN REGION has a rich tradition of building with stone since colonial times. The abundance of raw materials found in the region benefited the skilled stone masons who immigrated here, particularly those from Scotland, Germany, Italy and the Scandinavian countries. The Eastern Regional Profiles—Mountain Ledge, Country Rubble, Limestone, Shadow Rock, among others—respect the shapes, textures and color palettes of the region.

FIREPLACES FORGED WITH THE HERITAGE OF CRAFTSMANSHIP™

The fireplace is quite possibly one of the most dramatic spaces in any home. With the unique power to mesmerize, a fire draws us closer in to its warmth. Such beauty and drama beckons for an elegant frame. Eldorado Fireplace Surrounds are handcrafted to create a distinctive one-of-a-kind appearance, normally only found with natural carved limestone. Explore the stylistic array of surrounds, ranging from contemporary to traditional designs.

Eldorado Fireplace Surrounds

ELDORADO FIREPLACE SURROUNDS are designed to bring elegance and warmth to a variety of architectural styles. It all begins with a proprietary blend of limestone aggregates, minerals, natural pigments and special bonding agents. The material is hand applied layer by layer into the mold, creating natural color and texture variations, guaranteeing no two surrounds are exactly alike. Once the surround is removed from the mold, our skilled artisans hand-finish each piece through a four step finishing process. This one-of-a-kind process creates a highly authentic appearance which would normally only be found with natural carved limestone.

Eldorado Fireplace Surrounds are available in multiple colors and finishes including Honed, Travertine and the more distressed and aged color/finish Antique Castello. Eldorado artisans masterfully distress edge and surface details to recreate the weathered appearance of surrounds often found in classical architecture.

Bronze Shadow Rock (pg. 56) with a dry-stack grout technique.

Because Eldorado Stone replicates natural stone, variations should, and can be expected. Even though colors in this brochure are as close to the actual stone as possible, photographic and printing techniques — and actual viewing conditions — can alter perception of color. It is recommended to obtain a sample of Eldorado Stone before placing an order.

If you would like more information on prices, availability of stone, the name of your local distributor, or answers to any questions not covered in this brochure, please contact us. We would be happy to assist you with your stone building plans. Detailed installation instructions, specifications, technical information and test data is available upon request.
